TRIM® MQL™ 1000 is a high-performance, vegetable ester-based, micro-lubrication fluid. It is fully compatible with all "micro lube" and micro-mist systems. MQL 1000 contains a blend of environmental and operator-friendly materials that provide very high levels of EP and boundary lubrication to control BUE and sliding friction. MQL 1000 out-performs the competition in sawing, drilling, tapping, reaming, and milling, to name just a few. In situations where it is impractical to use a micro-lubrication applicator, MQL 1000 may be manually applied to the tool or the work piece.

**Specialty**

Specially suited to your operation:

TRIM® specialty fluids are specifically tailored to unique needs, such as very high-pressure or high-volume applications, or to address specific code or approval requirements.

Whatever your problem or unique requirement, there is always a TRIM solution for you.

**Choose MQL 1000:**
- Out-performs the more expensive products
- Environmentally friendly, renewable resource based
- Easily water washable — does not produce hard-to-remove residues
- Very low mist
- Promotes superior finish and tool life and is compatible with all materials
- Very high levels of lubricity with even, minimum quantities of material at the point of cut for high material removal rates
- Has been extensively tested and proven in all major brands of micro lube applicators

**MQL 1000 especially for:**
- Applications — drilling, milling, reaming, sawing, and tapping
- Metals — ferrous metals and nonferrous metals
- Industries — automotive and job shop

**MQL 1000 is free of** — chlorine, mineral oils, and sulfur

**Health and Safety**

Additional Information

- Consult Master Fluid Solutions before using on any metals or applications not specifically recommended.
- This product should not be mixed with other metalworking fluids or metalworking fluid additives, except as recommended by Master Fluid Solutions, as this may reduce overall performance, result in adverse health effects, or damage the machine tool and parts. If contamination occurs, please contact Master Fluid Solutions for recommended action.
