OG225
Heavy Duty Cutting and Grinding Oil

TRIM® OG225 is a medium to heavy-duty straight oil designed for use in grinding operations of hardened steel alloys, tool steels, stainless steels, inconels and titanium. A carefully selected extreme pressure/anti-wear package together with great detergency ensures TRIM OG225 provides very high stock removal rates in flute grinding without burning. It is also formulated to comply with aerospace regulations, i.e. no chlorine and no active sulphur additives. TRIM OG225 can also be used to machine all materials, including yellow metals, in high pressure applications where low oil mist is advantageous.

High Performance Straight Oils

Tough water white grinding oils:

Use TRIM® high purity, high performance straight oils for tough carbide and HSS tool grinding.

Utilizing either highly refined hydrocracked base oils, fully saturated esters or a combination of the two ensures very low levels of mist, foam and consumption rates while delivering safe, high flash points. TRIM high performance straight oils provide excellent wheel flushing properties, good friction reduction qualities and workpiece cooling.

High purity delivers tough grinding performance.

Choose OG225:

- Excellent extreme-pressure/anti-wear additive package for efficient metal removal
- Excellent filterability in precoat filter systems
- Hydrocracked base oil ensures very low misting potential
- Very high flash point
- Low foaming
- Excellent oxidation stability
- Excellent compatibility with copper containing alloys
- Light color and low odor for good operator acceptance

OG225 especially for:

Applications — grinding, grinding HSS tools, and machining
Metals — high-strength steels and tool steels
Industries — aerospace, automotive, medical, and tool manufacturing
OG225 is free of — active sulfur, chlorine

OG225
Heavy Duty Cutting and Grinding Oil

Application Guidelines
- TRIM OG225 is designed to be used straight.
- For additional product application information, including performance optimization, please contact your Master Fluid Solutions' Authorized Distributor at https://www.2trim.us/distributors.php, your District Sales Manager, or call our Tech Line at 1-800-537-3365.

Additional Information
- Consult Master Fluid Solutions before using on any metals or applications not specifically recommended.
- This product should not be mixed with other metalworking fluids or metalworking fluid additives, except as recommended by Master Fluid Solutions, as this may reduce overall performance, result in adverse health effects, or damage the machine tool and parts. If contamination occurs, please contact Master Fluid Solutions for recommended action.
